This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.

INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1934 edition of the Staunton City Directory.

Confidence in the growth of Staunton's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Staunton to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Staunton Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order:—

THE BUYERS' GUIDE, pages 17 to 44, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Staunton. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Staunton, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns is included in pages 45 to 234. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Staunton, and the name, official personnel, nature and address of each firm and corporation in the city.

THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE, covers pages 237 to 290. In this section the names of the streets are arranged in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street.

THE CLASSIFIED BUSINESS DIRECTORY is included in pages 293 to 342. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common inter-

mediary between buyer and seller. As such it plays an important part in the daily activities of the commercial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Staunton.

The Staunton Directory Library

Through the courtesy of the publishers of the Staunton City Directory, a Directory Library is maintained in the offices of the Staunton Chamber of Commerce, for free reference by the general public. This is one of nearly 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

HILL DIRECTORY CO., Inc.,

Statistical Review

Form of Government—City-manager.

Population—Total, 11,990; males, 5,453; females, 6,537; total colored, 1,734; white males of age, 3,335; white females of age, 3,820 (1930 U. S. Census). Local estimate at present, 14,500. American-born, 98.6%. Predominating nationality of foreign-born residents, Italian.

Area—2.81 square miles.

Altitude—1,400 feet.

Climate—Mean annual temperature, 53 degrees F.; average annual rainfall, 42.5 inches.

Parks—2, with total of 160 acres, valued at \$134,000.

Assessed Valuation—\$8,300,000, with \$2.35 per \$100 tax rate.

Bonded Debt—\$1,516,000.

Financial Institutions—6 banks and 3 trust companies, with total deposits of \$5,650,000 (May 1, 1934), and total resources of \$8,500,000 (May 1, 1934).

Postal Receipts—\$83,139 (calendar year 1933).

Telephones in Service—2,620.

Churches—23, representing 11 denominations.

Building and Construction—Value of building permits in 1933, \$52,378.

Real Estate—105 transfers, with total value of \$550,000, made in 1933.

Industry—Chief industries of city and surrounding territory: Manufacturing and agriculture. 31 manufacturing establishments, employing 700 men and 650 women, paying wages of \$900,000 annually, and having products valued at \$2,800,000 annually (1933 report). Principal manufactured products: Furniture, men's garments, flour and dairy products.

Trade Area—Retail area has radius of 34 miles, and population of 117,000; wholesale area, radius of 45 miles, and population of 150,000.

Newspapers—2 dailies and 1 weekly.

Hotels—3, with total of 300 rooms. Newest hotel opened in 1925.

Railroads—2: Chesapeake & Ohio and Baltimore & Ohio.

Highways—Lee Highway, Midland Trail, Jefferson Highway and Valley Pike.

Airports—1, municipal.

Amusements—Largest auditorium in city (theatre) seats 1,027 persons. 2 theatres, with total seating capacity of 2,019 persons. 2 golf courses.

Hospitals—1, with 75 beds.

Education—Mary Baldwin College. 12 public schools, including 3 high. 1 parochial school. Number of pupils in pub-

lic schools, 1,925; in parochial, 75. Number of teachers in public schools, 48. Value of public school property, \$2,563,000; parochial, \$10,000; college, \$1,500,000.

Public Libraries—1, with 10,000 volumes.

City Statistics—Total street mileage, 34.2, with 25.06 miles paved. Miles of gas mains, 27. Number of water meters, 2,700; light meters, 3,203; gas meters, 1,375. Capacity of water works (municipal), 125,000,000 gallons; daily average pump, 1,400,000 gallons; miles of mains, 39; value of plant, \$1,225,000. Fire department has 13 men, with 1 station, 3 engines and 5,000 feet of hose. Value of fire department property, \$55,000. Police department has 14 men, with 1 station.

Location

For the past decade the eyes of the nation have been fixed upon the great Shenandoah Valley of Virginia with ever-increasing interest. Beauty of scenery, historic background, and natural wonders have drawn tens of thousands of visitors with the passing years, but the vast wilderness tracts of the Shenandoah National Forest Reservation in the western Alleghenies and the primeval beauties of the proposed Shenandoah National Park in the Blue Ridge will draw hundreds of thousands in the years to come.

Staunton, the county seat of Augusta County, situated among the fountains of the Shenandoah River, at the intersection of the Midland Trail and Lee Highway, and of the Chesapeake & Ohio and Baltimore & Ohio Railways, with hard-surfaced roads and rail connections to the cardinal points of the compass, and lying midway between the great Federal park and forest projects, is easily the most important city within a radius of nearly a hundred miles of territory, contrasting the alluvial richness and productivity of its meadows and river bottoms with the rugged beauty of its mountain scenery.

As a little settlement on the outskirts of civilization, Staunton early attracted attention and attained importance far in excess of its size and population. Occupying a strategic position in relation to the larger cities of the East, bearing a proud history, identifying it with the records of the entire nation, endowed by nature with a delightful climate and unsurpassed mountain and valley scenery, with half a dozen of the greatest natural wonders of the world near its doors, it follows as a matter of course that Staunton should make its strongest appeal as a residential and educational center. Yet there is here an industrial stability and a financial strength and soundness that offer ever-increasing opportunity to those who seek the paths of commerce or the marts of trade, while the broad acres of Augusta are ever beckoning to the agriculturist, the fruit-grower and the stock-raiser.

Highly individualistic, esteemed for its hospitality in a notably hospitable state, Staunton presents both a friendly and a cultured atmosphere to the visitor; and the homeseeker, desiring a place to dwell in peace and comfort, to raise and educate his family, soon falls under its magic spell and remains to be numbered for the rest of his life as an adopted son.

Population

Staunton, with its suburbs, has a population of about 15,000, while Augusta County, of which Staunton is the county seat, has nearly 40,000 more. Nearly 99 per cent of

this population is native-born American stock. Illiteracy is at a low ebb and the problem of the unemployed is almost unknown here, most of the unskilled labor, as well as the skilled, being absorbed in the factories and industries of the community.

History

Augusta County is one of the largest and most productive counties in Virginia. Prior to 1784, when Virginia ceded the Northwest Territory from which later came the states of Ohio, Indiana, Illinois, Wisconsin and Michigan, Staunton was the seat of government of this vast empire, which, according to the wording of the Virginia-London Company's grant in 1609, reached from the Atlantic Ocean "west and southwest to the South Sea," as the Pacific Ocean was then believed to be.

Founded by John Lewis and John Mackey, Staunton was named in honor of Lady Staunton, wife of Governor Gooch, and was chartered in 1749. The extent of the domain over which she reigned in early Colonial days may be realized from the fact that court was on one occasion adjourned at Staunton to meet at Fort Duquesne, or what is now the city of Pittsburgh, Pa. Early court records, the deed to the Northwest Territory signed by the chiefs of the "Five Nations of the North," and other important documents may be seen at the county clerk's office.

In 1781, when Colonel Tarleton, raiding toward Charlottesville, drove the Virginia Legislature across the Blue Ridge, they found a safe refuge in Staunton, holding their sessions for a time in old Trinity Episcopal Church, thus making Staunton the temporary capital of Virginia.

Next to Richmond, Staunton during the Civil War was the chief base of supplies for the Army of Northern Virginia, and for Jackson's famous Valley Campaign. It was twice occupied by Federal troops, but not until the latter part of the war. Near Staunton were invented the reaper and the sewing machine, and here Woodrow Wilson was born.

"The Staunton Plan" of city-manager government first saw the light of day in Staunton in 1908, and spread rapidly over the country.

Religion

Here religious toleration found an early haven and has since endured. Religious zeal and the right to worship God according to one's own conscience were determining factors in the upbuilding of the community. While a number of creeds were represented by the early settlers, they adjusted their differences amid the common dangers of the wilderness and lived together in brotherly love and harmony. Twenty-three flourishing churches now exist in Staunton, representing all leading faiths of the country.

Education

Staunton is best known throughout America and abroad for its schools. City and county together have nine private educational institutions, one college for young women, and one State school. So high are the standards of these schools that they have contributed largely in making the Shenandoah Valley nationally noted as an educational center.

The most widely-known schools are the three military prep schools for boys, two prep schools for girls, one college

for young women, and two business colleges. The public schools in both city and county are among the finest in the South. There are five private schools of music.

Industry

While Staunton has many prosperous industries, such as overall, men's wear, pennant and furniture factories, ice plants, cold storage plants, flour mills, iron foundry, machine shops, several of the largest garages in the state, ice cream plants, a fertilizer factory, horse and cattle markets, a brick plant, and limestone and lime-grinding plants, with talc and manganese mines nearby, its industrial development is just beginning to gain speed. Excellent opportunities are offered for lumber mills, textile plants, canneries, apple by-product plants, and factories for farm implements, automobile accessories and the like.

Agriculture

Staunton offers an excellent market and shipping point for grain, fruits, vegetables and other products of farms and gardens for miles around. Augusta and adjoining counties are primarily in the bluegrass limestone section. Augusta alone has 3,759 farms with an average of 110 acres each, the total valuation of which is approximately \$50,000,000. The wheat crop averages \$1,500,000; corn, \$2,225,000; and hay, \$1,500,000 annually. A considerable amount of sawed timber, railroad ties and telegraph and telephone poles is shipped annually.

Stock-Raising

Augusta is the leading county in the state in beef cattle and horses and in live stock generally. It is first in wheat and hay, second in poultry, and third in dairying. It has some of the finest herds of pure-bred live stock in the East, and offers great opportunities to those interested in any or all branches of stock-raising.

Fruit-Growing

Augusta County's apple industry is second only to Frederick County, in Virginia, and is increasing. There are approximately 15,000 acres in orchards, valued at over \$5,000,000. The average annual crop value, including peaches, pears, and small fruits and berries, is over \$1,500,000.

Merchandising

Staunton is the hub of a trading radius of forty-five miles, with a trading population of 150,000. The spacious and thoroughly modern stores of every kind, wholesale and retail, are noted throughout the state. In addition to the general business, there is always a brisk trade in farm supplies.

Hotels

The Stonewall Jackson Hotel, recently built at a cost of three-quarters of a million dollars, is one of the finest tourist hotels in structure, appointments and service, in the state, while first-class accommodations are furnished at the Beverley, the Shenandoah, the Kalorama, and other up-to-date hostelryes.

Clubs and Societies

Practically every nationally-known fraternal and luncheon society has a chapter in Staunton. There are the Rotary Club, the Kiwanis Club, I. O. O. F., Masons, Junior O. U. A.

M., W. O. W., K. of C., F. O. O., Knights of Pythias, T. P. A., Boy Scouts, Campfire Girls, and many similar organizations.

Y. M. C. A.

Staunton's \$100,000 Y. M. C. A. building, one of the finest in Virginia, was made possible by a generous contribution from the McCormick family of Chicago, as a memorial to Cyrus H. McCormick, inventor of the reaper. It also houses the public library and is the chief civic center.

Theatres

Staunton has one legitimate theatre, one moving-picture theatre, and three halls or auditoriums, with a total seating capacity of 4,000.

Light, Power and Water

The city has its own light and power plant for municipal purposes, while gas and electric heat, light and power are available in ample quantity from two strong public service organizations. The city also owns its water system, which was recently completed at a cost of over three-quarters of a million dollars. The source of supply of pure soft water is in the Allegheny Mountains, twenty miles from the city.

Finances

Staunton has six banks, with total resources of \$8,500,000. The city government is financially sound and economically administered under the commission-manager plan, which Staunton originated.

Climate

Few people have ever visited this section at any time of the year without remarking upon its superb climate. The annual mean temperature is 53 degrees, while the average summer maximum is 83 degrees. The summers are never excessively hot, while the winters are mild, with not more than six or eight weeks of bad weather, usually in January and February.

The annual rainfall is 42.5 inches, mostly in the spring and early summer, when needed for growing crops. The late summer and fall are usually dry. Prevailing winds are from the west. The elevation is 1,400 feet.

Sports and Playgrounds

Public tennis courts and children's playgrounds are maintained at Gypsy Hill Park, while the park itself is the chief municipal recreation ground, with summer concerts by the Stonewall Brigade Band.

There is also a public and a private baseball park, and two golf clubs.

Hunting and Fishing

Some of the finest quail, grouse and turkey shooting in the state may be found within an hour's motor ride of Staunton, while bear and deer abound in the Alleghenies. There is also good trout and bass fishing in season, and the Shenandoah Game and Game Fish Protective Association, with headquarters at Staunton, is actively engaged in a movement to conserve the supply of both fish and game.

Shenandoah National Park

The Shenandoah National Park, approved by the Federal Park Commission, comprises the heart of the Blue Ridge

Mountain range, a strip running seventy-five miles from Front Royal at the north to Waynesboro on the south, and averaging nine to twelve miles in width. It contains nearly 700,000 acres and holds within its boundaries all the beauties of the primeval wilderness. It is within easy reach, by good roads, of 40,000,000 people.

National Forest Tracts

A few years ago the Federal Government started purchasing mountain land in the Alleghenies for the Eastern Forest Reserve system, and in the Shenandoah National Forest Reservation, now owns over 350,000 acres of wild mountain country, open in season to hunters, fishermen and campers, and patrolled by forest agents and fire wardens. This tract, as well as the Massanutten and Natural Bridge tracts, is but a few miles from Staunton.

Natural Wonders

Four great caverns, the Grottoes of the Shenandoah, Endless Caverns, Shenandoah Caverns, and Luray Caverns, all famous the country over for the marvelous beauty of their underground glories, are within striking distance of Staunton; the great Cyclopean Towers are but sixteen miles distant, and Natural Bridge, unique in nature's handiwork is only forty-eight miles away.

Auditing

Every young man or young woman who expects to enter the business field should have a business education. A college or professional course alone is insufficient for business success. Business training costs but little in money or time, yet makes the possessor independent and self-supporting.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

It's a Wise Move to get

TRADE! You like to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

CITY DIRECTORY USES

1. SALES PROMOTION:

a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

b. Leads—

Determining proper official to approach for sales interview. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

d. Building mailing lists and direct mail campaigns—

1. List of local people (Neighborhood List) within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. Lists of business houses and the professions—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. Vocational Lists—Such as clerks, stenographers, telephone operators, carpenters, salesmen, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.
Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

2. CREDIT:

a. Verifying customer's statements and information.

b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

FOR EVERY BUSINESS

d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

3. DELIVERY AND SHIPPING:

a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

5. GENERAL INFORMATION:

The Alphabetical Directory lists—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

The Householders' Street Directory shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

The Classified Business Directory shows all business in the city arranged under heading most descriptive of the nature of the business.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

More goods are bought and sold through the CLASSIFIED BUSINESS LISTS OF THE DIRECTORY than any other medium on earth.

National Valley Bank

HILL'S STAUNTON

Directory of Household,ers, Occupants of Office Build-
ings and Other Business Places, Including
a Complete Street and Avenue Guide

1934

Copyright, 1934, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

***Between two intersecting streets designate there are no houses between them.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

The City Directory

is the most effective and most economical method of reaching all the people all the time. Those who buy without looking at the list of those who sell do themselves great injustice. The classified lists in the Business Directory form the best Buyers' Guide on earth. A modern, up-to-date method of getting what you want.

Advertising The City Beyond Its Gates

Copies of this Directory are available in Directory Libraries in Cities all over the country.

TRADE! You like
to patronize those concerns
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

THE PUBLISHERS

This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
